

I wanted to let you know that K-LOVE is one of only a few Christian format radio stations in our local community. It provides very positive programming, uplifting music, and an atmosphere that I am comfortable having all my children listen to at all times during the day. I believe that it would be a detriment to our community if another station with lesser values took its place. There is enough trash on the radio right now. Please do not allow K-LOVE to be replaced by something else, and allow families to continue to be encouraged and uplifted by this station.
